

**Keep an Eye Out for Deliveries**  
know if & when they arrive

**Or, Watch Out for "Porch Pirates"**  
**looking to steal them**  
scare them off from the safety of your phone,  
"Hey, Police are on the way!"

**Welcome Home**

New Smart Security  
at Your Front Door, on Your Phone

# Who's There?

With the iBridge Video Doorbell, you'll always know, who's at the door, friend or foe

## Look in From Any Smartphone - whether you're home or not

You'll get a message whenever anyone's there, along with a hi-res 1080P live video clip, just to look at or open a video chat up, right from your phone.

## Easy as 1-2-3

3 Easy buttons will appear right on top of the video viewer screen - **Accept** (chat with the person there), **Hang-up** (ignore them & disconnect) or **Mute** (just watch)

## Broad Range Coverage & Night Vision

With wide 140° field of view & special low-light optics, you'll get a great view anytime there's someone to see

## Two-Way Live Video Chat from anywhere

Talk right through your phone with any visitor that "pops up" at your door, whether they're friends you missed, or someone you want to scare off from complete safety

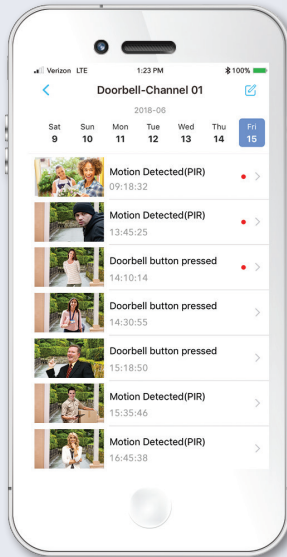

## Video Storage

All your events, are continuously stored with time/date-stamp within your revolving video cloud space. (Come clouds, rain or snow, no worries, your pro doorbell is built tough, IP55-rated.)

## Professional Integration

We'll integrate it for use with your security system or as standalone

## Capture Happy Surprises

even from far away, when you can't be there

Or, Capture a "Would-be-Thief" on camera, before he's ever inside

Share his picture with local police, too.

## Chat with a Welcome Guest

Or, Screen Out an Unwanted One before he gets a foot in the door

tell him you're not interested, right through your smartphone
