

# New! iBridge Messenger SMS/MMS Notifications with Live Video Alerts

Video Clip  
From  
**BEFORE**  
the Event

Video Clip  
From  
**AFTER**  
the Event

**Now, Accounts Can Know All and See All...** when the kids come home, there's a burglar alarm, or the pool alert goes off, right on their phone.

## Now, Do it All. Better & Affordably

- **SMS and/or MMS Text Notifications with Video Alerts - Reminders, Confirmations & Exceptions.** Supports virtually all phone types
- **Solve any issues they're notified or reminded of with iBridge Remote Connected Home Services** (lock/unlock doors, arm the alarm, adjust HVAC, shut off lights, etc)
- **Shows what was happening, both before and after the alarm or event, with Live Video Alerts** including 10-Sec. Pre- and Post-Event Video Clips. *Go-Live option, coming too.*
- **Broadband-based, Multimedia Technology for Hi-Res 20FPS VGA Live Video** delivered right on their mobile devices (without logging in elsewhere)
- **Consumers Easily Select & Customize the Notifications they Want & Who Gets Them** with their easy-to-create address book and a categorized list of reminder/notification types and real world examples.
- **More Intelligent EZ Messages-Created from any system activity on the panel bus:**
  - Zone, or group of triggers, time, user, alarm, event or grouped events, in easy terms, e.g. door unlocked, security system disarmed (or not), gun-or liquor-cabinet opened, dispensing meds. (or lack of), kid (name here) returned home, HVAC low temp alert, side pool gate ajar.
- **Backward-Compatible.** For New & Retrofit Gemini or iBridge Accounts
